

Student Government is a fun and exciting organization for students, helping them get a better understanding of how our school functions. We work hard with our school work and our student government. We have different organizational meetings, such as citywide, and hold many fundraisers to help our school and community. We make a difference in our school, our lives and our world.

Manajah Jones
Student Government President

Let your voice be heard

Being on student council won't make you emperor. But it will give you a real chance to make a difference.

Most junior high schools or middle schools have student councils, but a lot of students don't know exactly what they do. You might think they just plan dances and bake sales.

But a good student council can do a whole lot more. It can:

- Look out for students' welfare;
- Have a voice in important school decisions;
- Invite speakers;
- Raise money for charity;
- Organize volunteer activities.
