The JCPS is in the process of developing a new Strategic Plan that will set up the District's priorities and goals for the next three years. The Steering Committee has been working monthly to develop the vision and mission statements and are now ready to get input from the stakeholders in our school system.

We put out a survey in May, and will hold Focus Group meetings on Monday, June 20, 2022 to gather more feedback. The results of District Leadership input, stakeholder survey and Focus Groups data will assist in creating the priority goals for the Strategic Plan.

Steering Committee members do not need to join, but we hope that other administrators, staff, parents and community members will take advantage of the opportunity to share their thoughts.

THANK YOU FOR YOUR SUPPORT!
